

GREENTRIPPER

GIVE BACK TO NATURE

Together, we give back to nature

Climate change is a global challenge that requires global collaboration. As travel professionals, High Tech Travel recognizes its responsibility to address the environmental impact of travel. That's why the company has partnered with Greentripper to **raise awareness** about the emissions caused by travel. Not to create guilt, but to help travellers **make informed choices** and **inspire action**. This partnership enables travellers to understand their impact and support certified climate projects that **drive meaningful change**.

High Tech Travel supports the following climate projects

Together with Greentripper, High Tech Travel contributes financially to Gold Standard-certified projects that take immediate action to counterbalance unavoidable emissions. These projects not only reduce carbon emissions but also generate significant **environmental, social, and economic benefits**, aligning with the

Avoid deforestation & support communities in Ghana

This Gold Standard certified climate project in Ghana aims to reduce deforestation, by the distribution of efficient cookstoves that reduce the use of wood and/or charcoal by 50%. Thanks to this projects, it is possible to reduce the pressure on local forests and biodiversity, to support families, to stimulate economic activity and to improve the health situation.
